MARKS ARTIFICIAL LIMBS

WITH RUBBER HANDS AND FEET

The Most Comfortable, Durable and Natural.

Although a man may lose both legs, he is not necessarily helpless. By using artificial legs with Marks' patent rubber feet attached, he can be restored to usefulness. One of these engravings is from an instantaneous photograph of a man ascending a ladder. He has two artificial legs substituting his natural ones which were crushed in a railroad accident and amputated. With his rubber feet he can ascend or descend a ladder, balance himself on the rungs, and have his hands at liberty. He can work at a bench and earn a good day's wages. He can walk and mingle with persons without betraying his loss; in fact he is restored to his former self for all practical purposes.

With the old method of complicated ankle joints, these results could not be so thoroughly attained.

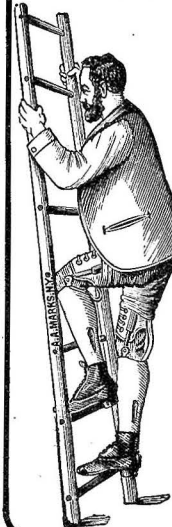

Over 33,000 in use, scattered in all parts of the world. Many of these have been supplied without the wearers presenting themselves to us, simply sending measurements on a measuring sheet which any one can easily fill out. **Received 44 Highest Awards.**

Purchased by the United States Government and many Foreign Governments.

A MANUAL of Artificial Limbs and illustrated measuring sheets sent free upon application.

The Connecticut Mutual

is in reality a mutual life insurance company. It gives Life Insurance to Protect the family. It gives it at only its actual annual cost. It makes that cost as small as possible by prudence and economy. In the past sixty-two years it has made that COST LESS on the average, than in any other company. Its policies are therefore the most desirable to those needing the protection, to him who has to pay for it, and to the agent who wishes to furnish his clients only that which is most to their permanent advantage.

Teachers' Course.

voices, soprano, contralto, tenor and basso, and, so far as possible, furnishes a clue to the proper
development of the many types of voice found within these four classes. On completion of this
course, a certificate of proficiency will be issued. Write or call for further particulars.

"The water was clear, contained no sediment, was colorless and odorless." "These results show that the water contains a moderately large amount of mineral matter, that it is not hard for a ground water and that it is of excellent purity." "In my opinion these results indicate that the water is a satisfactory water for table use." HERBERT E. SMITH, Connecticut State Chemist.

ANNOUNCEMENT

As there is an increased demand for "Facsimile Typewritten Letters" for advertising purposes, we wish to announce that we have secured a machine that will produce an exact duplicate of a Typewritten Letter, and we are in a position to furnish this class of work very promptly and at reasonable prices.

It is an undisputed fact that this method is by far the best means of reaching a prospective customer, as it saves the expense of a traveling salesman and the personal "Typewritten" letter through the mails is bound to reach the customer, where in many cases the salesman would not be able to gain an interview. This sheet is produced on the above mentioned machine.

We also make a specialty of furnishing up-to-date trade and mailing lists of any and all trades and professions throughout the country. We have in our office one of the largest files of directories in the world, placing us in a position to furnish authentic lists which are up-to-date in every respect, at reasonable prices.

We do all classes of circular work, such as addressing envelopes, cards, postals, wrappers, Wedding and Society Invitations, Announcements, etc. Also folding and inserting circular matter, stamping envelopes and mailing them, making it very convenient for the advertiser and saving him considerable time and money, with the assurance that it is properly done.

Thanking you for past patronage and with the hope that, should you have anything in the above lines, you will give us a call, we remain,
Very truly yours,

The Price & Lee Co.
